Why Choose Insolroll Solar Shades?

Dark colored solar shades maximize view-through

Solar screen shades block the sun but not the view.

Insolroll® Solar Shades are engineered to make your home more comfortable and energy efficient. Solar screen shades control the sun's glare, heat, and UV rays while maintaining an open feeling.

Insolroll offers a wide range of solar screen fabrics to provide the perfect solution for each application. Color and openness of the fabric weave (1%, 3%, 5%, 10%) are central factors in a fabric's performance, and work in concert with window orientation and size. Our fabric selections provide glare, UV, and heat protection while allowing view-through.

Choosing a solar screen fabric- sun control and view-through characteristics

Light colored solar screen fabric

Excellent heat & UV reduction.
Light-filtering with moderate view-through.
Moderate glare control.

Dark colored solar screen fabric

Excellent view-through.
Excellent glare & UV reduction.
Moderate heat reduction.

SilverScreen® high performance fabric

Light-filtering, partial view-through.
Objects on the outside partially obscured.

Semi-sheer fabric

Insolroll Elements® Decorative Roller Shades

Textured fabrics in 5 opacity levels for your light control and privacy needs

Where more privacy is needed, translucent and blackout fabrics make it happen. Translucent shades allow light to pass through, creating a glow in the room when the shades are down. Blackout shades block light where room-darkening is needed; perfect for media rooms, bedrooms, and anywhere nighttime privacy is desired. Sheer, Semi-sheer, and Solar fabrics provide filtered light with varying levels of view-through.

Choosing decorative fabric opacity- light and privacy characteristics

Sheer fabrics Light-filtering, softened view-through. Objects and colors on the outside can be seen.

Solar Screen fabrics Screen fabric with precise openness and technical properties. View-through varies with openness, color.

Semi-sheer fabrics

Light-filtering, partial view-through.
Objects on the outside
partially obscured.

Translucent fabrics

Light-filtering, no view-through.
Object shadows may be visible
on the fabric.

Blackout fabrics

Opaque, no view-through.
Room darkening.
Objects behind fabric not visible.

Operation

We are industry leaders in child-safety

Motorized Translucent Shades

3 Choices for Smooth, Dependable Operation

- Cordless
- Continuous Bead Chain*
- Motorized

Insolroll's proprietary Metal Select Locking Chain Guide; in 5 colors. The most attractive and durable chain guide in the industry for smooth, child-safe continuous bead chain operation.

Cordless Quiet Spring Roller Shade features easy installation and almost effortless adjustment.

Motorized Shades offer convenient operation—perfect for oversized or hard-to-reach windows, with many control options to match your lifestyle.

!WARNING / !ADVERTENCIA

Window Blind Cord Can STRANGLE Your Child.

To prevent strangulation, purchase cordless products or products with inaccessible cords.

La Cuerda de la Persiana puede ESTRANGULAR a Su Niño. Para evitar el estrangulamiento, compre alternativas cuerda o productos con cuerdas inaccesibles.

*All Insolroll shades meet or exceed American National Standard for Safety of Corded Window Covering Products (ANSI/WCMA A100.1 - 2018).
